

**New for 1992!**

# Evergreen

## Meeting the Challenges of Outdoor Adventure!

The revolutionary new Evergreen by Fleetwood is the first folding camping trailer of its kind that is ideally designed for mobility impaired campers, as well as campers who may desire additional interior space. The Evergreen is a Pioneer series trailer that provides campers with unique new features. Like wider aisle space and a broader bathtub...just to name a few.

Evergreen's interior is large and spacious, allowing plenty of room for easy maneuvering. Sliding doors on the upper galley allow easy access to gear, as do the top and front opening cabinets on either side of the trailer. Appliances and cabinets are thoughtfully placed at convenient operating and storage levels.

Outside, the Evergreen shares the new Pioneer contemporary graphic styling. A sturdy platform step is standard for entry convenience. Also included is an extra wide one-piece screen door with 32" of inside clearance space. Outside, you'll find 110V outlets, a high-pressure stove and exterior panels of ABS plastic and Krystal-Kote® aluminum to resist scratching and marring and maintain its good looks for years.

Designed for any camper who is looking for a spacious and open floorplan and all the creature comforts, the Evergreen is the ideal folding trailer for those needing greater accessibility and mobility.

# Evergreen Specifications
